CPS Public Announcement - Positive COVID-19 Test

On Monday November 9, 2020, the Conrad Public School District was notified that a Conrad High School student tested positive for COVID-19. According to the Pondera County Health Department, some of the District's staff and students were in contact with the student during the period of possible exposure.

Any staff or students that were at risk of exposure have already been contacted by the Pondera County Health Department. The Health Department has determined a safe and appropriate course of action, which does include quarantine orders. At this point in time, all schools will remain open for in-person learning and remote learning will be utilized where appropriate. School and County Health officials will continue to monitor the situation and will provide further information if and when it becomes available.

It is still recommended that any person who feels sick or ill seek out their medical provider for specific instructions. The School District is in contact with the Health Department and reviewing the local, state, federal, and CDC guidance to complete cleaning the school and other related facilities.

If your child is feeling sick or ill, please contact the school and keep affected students home. Thank you for doing your part in helping to keep our students, staff, and community safe.

Sincerely,

Sean Beddow, Superintendent  
Conrad Public Schools
